Education

Bachelor of Computer Science January 2024 - August 2025
University of Information Technology
Yangon Myanmar

Field: Computer Science
Pursued a Bachelor of Computer Science degree at the University of Information Technology in Yangon, Myanmar, from January 2024 to August 2025, developing a strong foundation in computer science principles and practices, and actively participated in various club activities, fostering teamwork, leadership, and problem-solving skills.

Projects

Fitfinity
Laravel Developer | Jan 2022 - May 2022
Tech: Laravel, PHP, React, Tailwind Css
GitHub: https://github.com/HtetPaingLinn/FitfinityHealthcareWebsiteJ2EE
Developed a robust and scalable Laravel web application, leveraging PHP to craft a seamless backend infrastructure, while integrating with a React frontend to provide a dynamic and interactive user experience. Implemented a responsive and visually appealing UI using Tailwind CSS, ensuring a fast and efficient fitness-tracking platform that adapts to various devices and screen sizes.

Awards & Honors

Winner
Samsung AI Hackathon (2024)
